PREFACE

The report which follows represents a compilation and analysis of selected data reported by North Carolina public libraries for the year July 1, 1987 through June 30, 1988. This year's report introduces some changes over previous editions. Modifications have been made in the scope and format of the publication in the hope of making it more useful to the library community and elected officials.

Two of the most significant changes in the presentation of this data is the inclusion of certain input and output measures for each library, and the order in which individual libraries are listed in the tables. Output measures shown include some of those recommended by the Public Library Association: circulation per capita, program attendance per capita, registration as a percentage of population, and turnover rate. Other measures were included at the recommendation of the Statistics and Measures Committee, Public Library Section of the North Carolina Library Association: for example, expenditures per capita, volumes per capita, circulation per FTE employee, and cost per circulation. Formulas for determining these measures are shown in the footnotes to the tables.

The reported data is presented in five tables. Please note that there are actually two versions of each table: one showing data for public libraries which participated in State Aid for Public Libraries funding in 1987-88, and the other showing data for non-State Aid libraries. Within the tables libraries are listed in descending order by population of service area, rather than alphabetically within type (regional, county, etc.) as in the past. This was also done at the recommendation of the Statistics and Measures Committee, whose members felt that listing libraries in this manner would facilitate comparisons with other libraries serving a similar size population. The service area population is shown in Table I. To locate the line number of a specific library in the tables, please refer to the guide which follows this introduction. Since the data is in machine-readable form, it is now possible to generate many other types of analyses and rank-orderings. In light of this capability, we hope to issue supplementary reports on selected topics over the course of the year. Suggestions for these supplements are most welcome.

We wish to thank the members of the NCLA/PLS Statistics and Measures Committee for their ideas and ongoing support in the effort to develop and improve this publication, especially: David Paynter (Chair), Janice Blakeney, Jim Govern, Harriet Kawar, and Kay Taylor.

The tables in this report were generated from machine-readable data using Lotus 1-2-3 and an IBM PC-XT microcomputer. Libraries and others who would like a copy of these spreadsheet files on diskette for further study may request them by contacting Kitty Smith at the State Library.

Please notify the Library Development Section of the State Library of any changes in the directory information given for your library.

(1) R=Regional, C=County, M=Municipal

(2) Population (est. 7-84) is that used for State Aid purposes; that is, in localities where a region or county includes a State-Aid municipal library, the population of the municipality has been subtracted.

(3) Includes local governmental funds, plus other funds such as gifts, fines, special legislative appropriations, grants, etc.

(4) Includes only funds allocated from the Aid to Public Libraries Fund, administered by the State Library.

(5) Includes only LSCA Title I and Title III funds, administered by the State Library.

(6) Does not include capital appropriations, reserve funds, or unexpended balances from previous year.

This directory is divided into two sections, County and Regional. The County section is arranged alphabetically by name of county. The Regional section is arranged alphabetically by name of region, and then by county within each region. Libraries listed in ALL CAPS are headquarters libraries and those listed in lower case below each are branches or municipal libraries affiliated with that county or regional system. Independent municipal libraries (not affiliated with a county or regional system) are listed under the counties or regions in which they are geographically located.
